SPRING BARLEY

SY AMITY

SPRING BARLEY

A TRUE MULTI-PURPOSE SPRING BARLEY DUE TO ITS GRAIN CHARACTERISTICS (Zero GN AND SIZE) AND AGRONOMIC SCORES

AGRONOMIC & QUALITY CHARACTERISTICS

	SY AMITY 	SKYWAY	GERALDINE
Relative Yield	104	105	104
Resistance to Lodging	7	5	7
Straw Breakdown	6	4	6
Rhynchosporium	6	7	7
Net Blotch	8	6	8
1000 grain weight (g)	53.8	50.5	50.4
Hectolitre weight (kg/hl)	67.7	68.1	67.4
Screenings	0.8	1.0	1.2

Source: DAFM Recommended List 2023

STRENGTHS

- ✓ A Spring barley with both feed and malting potential
- ✓ A Zero GN Malt Barley
- ✓ Now going into large scale production in MCI in 2023

AGRONOMIC CHARACTERISTICS

- ✓ High yielding Spring Barley
- ✓ Excellent straw
- ✓ Excellent disease resistance
- ✓ Low levels of shedding and head disease in 2021 & 2022
- ✓ Largest grain on the market so very suitable for rolling and roasting

SY Amity gives growers a step-change in yield and straw strength compared to current standards.
